

maxi QUAT™

NEUTRAL DISINFECTANT CLEANER

maxi Quat is a concentrated, 5th generation all-purpose, quaternary hospital disinfectant-cleaner. It has been designed for use in daily maintenance for cleaning and disinfection of hard nonporous surfaces in hospitals, medical clinics, doctor's offices, nursing homes and dental clinics. maxi Quat kills and helps prevent harmful bacteria from becoming airborne; a causative agent of nosocomial infections. The active medicinal ingredients in maxi Quat are residual which means that its germicidal properties continue to express themselves long after the surface has been cleaned and disinfected. maxi Quat is unscented and by nature has a subdued faint odour. Its neutral pH permits its use on virtually all nonporous hard surfaces.

- ▶ **Cleaner**
- ▶ **Disinfectant**
- ▶ **Detergent**
- ▶ **Mildewstat** (On hard non-porous inanimate surfaces)
- ▶ **Deodorizer**
- ▶ **Virucide[†]**
- ▶ **Fungicide** (Against Pathogenic Fungi)

Product Availability

maxi Quat - 1 L Bottle (64x Concentrate) ... #60001

130 L

maxi Quat concentrate will make up to 130 L of working solution

Disinfection Time

Unscented

[†]Efficacy tests have demonstrated that this product is an effective bactericide and virucide in water up to 400 ppm hardness (as CaCO₃) in the presence of organic soil (5% blood serum).
