

1: Identification

GHS Product identifier IPANA FLUOR-O-2 PLUS ANTICAVITY FLUORIDE MOUTHWASH

Other means of identification REF 6070540523, REF 6070540528, REF 6070540538

Recommended use of the chemical & restrictions on use NHP mouthwash. Adults and children 12 years and over.

Supplier's identifier maxill inc., 80 Elm Street, St. Thomas, Ontario, N5R 6C8, Canada
Telephone: 1-800-268-8633, E-mail: info@maxill.com, Website: www.maxill.com

Emergency phone number maxill inc., 1-800-248-8633 (Monday-Friday, 7:00 – 17:00 N.A. Eastern Time)
VelocityEHS Emergency Response Services (24 hours)
1-800-255-3924, outside US & Canada, 1-813-248-0585

2: Hazard identification

Classification of the substance or mixture

Physical hazards No known physical hazards.

Health hazards No known health hazards.

Environmental hazards No known environmental hazards.

WHMIS 2015 defined hazards Not classified.

GHS label elements including precautionary statements

No symbol.

Signal word No signal word.

Hazard statement No statements.

Precautionary statements

- Prevention No statements.
- Response No statements.
- Storage No statements.
- Disposal No statements.

Other hazards which do not result in classification

WHMIS 2015: Health hazards not otherwise classified	Not applicable.
WHMIS 2015: Physical hazards not otherwise classified	Not applicable.

3: Composition/information on ingredients

CAS	Ingredient	Percent (%) w/w
7757-79-1	Potassium Nitrate	1 - 5

The actual concentration is withheld as a trade secret.

4: First-aid measures

Description of necessary first-aid measures

Inhalation Remove person to fresh air. If you feel unwell, get medical help.

Skin contact Immediately flush with water and then wash with soap and water. In case skin irritation develops, get medical help.

Eye contact Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical help.

Search for any maxill SDS using your mobile device.

Ingestion If swallowed, do not induce vomiting. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration. Rinse mouth. Get medical help.

Most important symptoms/effects, acute and delayed No known symptoms or effects.

Indication of immediate medical attention and special treatment needed

If you feel unwell, seek medical advice, and show the label where possible. Ensure that first aid responders are aware of the material(s) involved and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance. Keep out of reach of children.

5: Fire-fighting measures

Suitable Extinguishing Media For the materials involved in a fire, use dry chemical, foam, water, or CO₂.
Unsuitable extinguishing media: Information is not available.

Specific Hazards Arising from the Mixture

Fire Hazard There is no fire hazard.
Explosion Hazard There is no explosion hazard.
Reactivity During fire, gases hazardous to health may be formed.

Special protective equipment and precautions for fire-fighters Keep containers cool with water spray.

6: Accidental release measures

Personal precautions, protective equipment, and emergency procedures

Non-emergency personnel For small accidental spills of this product, personal protective equipment is not normally required when handling the material. See Section 8 of the SDS.
Emergency responders For small accidental spills of this product, personal protective equipment is not normally required when handling the material. See Section 8 of the SDS.

Environmental precautions There is no environmental precaution.

Methods and materials for containment and cleaning up This product is compatible with all glove materials (PPE). There are no inappropriate containment measures of clean up processes.

7: Handling and storage

Precautions for safe handling Observe good chemical hygiene practices. Trained or untrained personnel may handle this product. Do not eat, drink, or smoke when using this product. Keep container closed.

Conditions for safe storage, including any incompatibilities Keep in original container. Keep away from food, drink, and animal feed. Avoid direct sunlight. Keep at room temperature.

8: Exposure controls/personal protection

Control parameters

Occupational exposure limits: information is not available.

Appropriate engineering controls Not normally required.

Individual protection measures, such as personal protective equipment (PPE) Not normally required.

Eye/face protection Not normally required when working with small quantities.
Skin protection Not normally required.
Respiratory protection Not normally required.
Thermal hazards Not applicable.

9: Physical and chemical properties and safety characteristics

Physical state	Transparent liquid
Colour	Green
Odour	Mint
Melting point / freezing point	-5°C
Boiling point	100°C
Flammability	Not flammable
Lower and upper explosion limit / flammability limit	Not applicable (N/AP)
Flash point	N/AP
Auto-ignition temperature	Product is not self-igniting
Decomposition temperature	Information is not available.
pH	5 - 6
Kinematic viscosity	Information is not available.
Solubility	Soluble
Partition coefficient: <i>n</i> -octanol/water (log value)	Information is not available.
Vapour pressure	Information is not available.
Density or specific gravity	1.035 g/cm ³
Relative vapour density	Information is not available.
Particle characteristics	Not applicable

10: Stability and reactivity

Reactivity Not reactive under normal conditions. May react with incompatible materials.

Chemical stability Stable under normal storage, handling, and transportation.

Possibility of hazardous reactions Hazardous reactions will not occur under normal conditions.

Conditions to avoid Avoid elevated or freezing temperatures to maintain product integrity.

Incompatible materials Avoid oxidizing agents, reducers, strong acids, strong bases.

Hazardous decomposition products During fire, gases hazardous to health may be formed.

11: Toxicological information

Information on the likely routes of exposure

Ingestion Gastrointestinal irritation is not expected, but may cause stomach distress, nausea, or vomiting.

Skin contact No known symptoms.

Eye contact Causes irritation.

Inhalation None expected.

Symptoms related to the physical, chemical, and toxicological characteristics This information is not available.

Delayed and immediate effects & chronic effects from short- and long-term exposure This information is not available.

Numerical measures of toxicity This information is not available.

Interactive effects This information is not available.

Where specific chemical data are not available This information is not available.

Mixtures This information is not available.

Mixtures versus ingredient information This information is not available.

Search for any maxill SDS using your mobile device.

Other information No delayed and immediate effects, and chronic effects from short-term and long-term exposure are available. Some numerical measures of toxicity, including acute toxicity estimates are not available.

12: Ecological information

Do not discard material into drains/sewers or aquatic environment.

<i>Toxicity</i>	This information is not available.
<i>Persistence and degradability</i>	This information is not available.
<i>Bioaccumulative potential</i>	This information is not available.
<i>Mobility in soil</i>	This information is not available.
<i>Other adverse effects</i>	This information is not available.

13: Disposal considerations

Disposal methods Not classified as hazardous waste. Offer container for recycling or dispose in trash.

14: Transport information

Not classified as a Dangerous Good.

<i>UN Number</i>	Not applicable.
<i>UN Proper Shipping Name</i>	Not applicable.
<i>Transport hazard class(es)</i>	Not applicable.
<i>Packing group</i>	Not applicable.
<i>Environmental hazards</i>	Information is not available.
<i>Special precautions for user</i>	Information is not available.

15: Regulatory information

Safety, health, and environmental regulations specific to the product in question

CANADA - This product is not subject to the Hazardous Products Act (HPA) Part II (Hazardous Products) as per paragraph 12(j); Schedule 1 (Non-Application of Part II).

This restriction states that Part II does not apply in respect of the sale or importation of anything listed in Schedule 1 which includes any pest control product as defined in subsection 2(1) of the Pest Control Products Act, any explosive as defined in Section 2 of the Explosives Act, any cosmetic, device, drug or food, as defined in Section 2 of the Food and Drugs Act, any consumer product as defined in Section 2 of the Canada Consumer Product Safety Act and any wood or product made of wood. Exempt – NHP (drug)

16: Other information

Disclaimer

Information contained herein was obtained from sources considered technically accurate and reliable. While every effort has been made to ensure full disclosure of product hazards, in some cases data is not available and is so stated. Since conditions of actual product use are beyond control of the supplier, it is assumed that users of this material have been fully trained according to the requirements of all applicable legislation and regulatory instruments. No warranty, expressed or implied, is made and supplier will not be liable for any losses, injuries or consequential damages which may result from the use of or reliance on any information contained in this document.
