Disposable Mirrors

maxill's mirrors are a low cost, yet high quality tool that you can provide your patients so that they can see what is happening behind the teeth where most teeth are vulnerable to decay due to missed cleaning. The individual packaging helps reduce the risk of cross-contamination.

STERILE EO

- **Sterile and individually wrapped**
- **Spatula tip for dental applications**
- **Break resistant**
- **Available in white or assorted vibrant colours**
- **6.5" length (165mm)**
