

maxill xacto stripz shortz

Interproximal Reduction Strips

The xacto stripz shortz interproximal reduction (IPR) system is indicated mainly for orthodontic stripping (technique for creating interproximal space by wearing down the enamel via abrasion) and can also be used for interproximal finishing and for removal of excess cement and restorative materials. It has a sequence of five strips - one saw and four abrasive strips ranging from extra fine to coarse. Available in single-sided or double-sided configurations.

Product Availability

Serrated

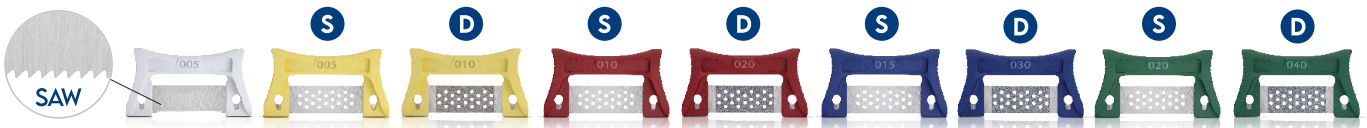

0.05 mm - SAW #81440
(10 strips per pack)

Single-Sided

0.05 mm - EXTRA FINE #81441
0.10 mm - FINE #81442
0.15 mm - MEDIUM #81443
0.20 mm - COARSE #81444
Assorted Kit (2 of each grit + 2 saws) #81439
(10 strips per pack)

Double-Sided

0.10 mm - EXTRA FINE #81445
0.20 mm - FINE #81446
0.30 mm - MEDIUM #81447
0.40 mm - COARSE #81448
Assorted Kit (2 of each grit + 2 saws) #81438
(10 strips per pack)
