Step Wedge Test Log Sheet

Radiation Protection Officer: _____

Date	Operatory	Outcome of Step Wedge Test (Pass/ Fail)	Tester Initials	Comments

Note: Following Safety Code 30 from June 2023, step wedge testing is to be performed at regular daily intervals on all radiography emitting units or after maintenance/calibration and must be documented to ensure image quality and equipment reliability. The person performing the step wedge test must be HARP approved to operate radiography equipment.
