QwikStrip™

FEAR IPR NO MORE!

The industry leading QwikStrips are an interproximal solution for removing cement from in between teeth and also for creating the precise spacing needed for minor tooth movement (IPR).

QwikStrip serrated strips have answered the challenge of removing excess cement after cementation of crowns, inlays, onlays and veneers. These strips were designed to make clean up simple and safe. The depth limiting design prevents soft tissue injury, while the unique handle provides a comfortable grip for optimal tactile control, giving doctors easy access to interproximal spaces. Cutting of the patients' lips or gums is a thing of the past with the firmly embedded strips.

QwikStip abrasive strips provide the ULTIMATE solution for doing IPR. Whether doing Invisalign, Six Month Smiles,™ Clear Correct,™ MTM,™ or any other orthodontic treatment, simply follow the colour coded sequence guide for achieving the precise interproximal reduction needed (IPR). Use all versions of QwikStrips (single-sided, double-sided, and curved) in any area of the mouth. In order to achieve optimal results and for maintaining the proper anatomical contour for posterior teeth, finalize your posterior IPR procedures by using the curved QwikStrips for refinement.

When needed, QwikStrip superfine strips can also be used for simply smoothing any interproximal restoration, or for relieving the friction (heavy contact) prior to seating crowns, veneers, inlays or onlays. Check the contact, adjust with the QwikStrip superfine strip, and then seat the restoration. It's that easy!

Hygienists, here's one for you! Use the QwikStrip™ (straight or curved) super-fine strips for removing tough stains that your instruments can't reach. You will never want to be without QwikStrips by your side!

QwikStrip™
Grip it & Strip it!

QwikStrip serrated and abrasive strips are colour-coded and available in four versions: Single-Sided, Double-Sided, Curved, and Serrated.

Single Sided Assorted	#41300
Single Sided Super Fine	#41301
Single Sided Fine	#41302
Double-Sided Assorted	#41310
Curved Assorted	#41320
Curved Super Fine	#41321
Curved Fine	#41322
Serrated Strip	#41330
Ultimate Assorted	#41335

(10 QwikStrips per pack)

$112.99 per pack
