**2019 • 2020 DENTAL CATALOG**

**[www.maxill.com](http://www.maxill.com) 1-855-462-9455**

We are pleased to present our 2019 catalog that contains more products than ever before. maxill continues to enjoy unprecedented growth thanks to all of our new dental customers that have discovered maxill and the unique business model we offer.

The success of maxill is no secret. Many companies talk about the ingredients of success but few companies follow through on the execution of the success formula.

## Savings

Dental professionals have come to know maxill as the most competitively priced supply source that they can rely on for the many product lines we offer. Take a good look at maxill's transparent everyday pricing formula in this catalog, our online store and our separately published promotional flyers. Compare maxill pricing to what your current provider is charging and you will quickly see how dental professionals across America save thousands of dollars every year by choosing maxill.

## Quality

There is an old saying; the bitterness of poor quality remains long after the satisfaction of a low price. maxill customers know that they never sacrifice quality and in many cases actually get a better quality product at a lower price. Give maxill a try to see for yourself.

## Reliability and Customer Service

Our customers know that when they make the call to **1-855-4-MAXILL** (462-9455) or when they speak to their local or inside account representative, they will be looked after. Whatever problem, issue, question or timeline they require, they will be served promptly. When you call maxill during regular business hours, you have the ability to access a human and not a machine. maxill has an order fulfillment rate of more than 99% which is the best in the industry. maxill has a large distribution hub in Ohio that ships to customers all across America.

**AMERICA's**   
**BEST CHOICE**

## President's Message

maxill got its start over 30 years ago in a rented 1,000 square foot industrial unit. maxill was only a toothbrush company back then. The company's first products were the #330 and #440 toothbrush models, which we still sell today. It was the advice, recommendations and guidance of our dental customers that pointed the way to our fantastic growth over the years.

Each year it is satisfying to see that the company gets bigger and better. More importantly, it is imperative that we also get better at serving the dental community on which we were founded.

If you have any questions, comments or if I can be of assistance in any way, please feel free to contact me at anytime. I can be reached at [johnshaw@maxill.com](mailto:johnshaw@maxill.com).

We know you have choices out there and we thank you for choosing maxill.

**John Shaw**  
Company Founder & President

## Active Ingredients:

n-Alkyl (50% C14, 40% C12, 10% C16)  
dimethyl benzyl ammonium chloride ..... 0.34%  
Didecyl dimethyl ammonium chloride ..... 0.51%  
Ethanol ..... 6.84%  
Isopropanol ..... 13.68%

Convenient spring loaded, flip close lid provides easy access, prevents dry-out, increases compliance, saves you money and time.

Heavy duty, non-woven cloth design provides uniform liquid release onto surface to ensure an evenly saturated surface; no bunching or tearing in the dispenser.

Convenient refill rolls sold in plastic pouches reduce waste and save you money. Our pouches are triple laminated to help maintain stability until you are ready to use the roll.

mycolio DISINFECTANT WIPES are not only effective cleaning wipes, they also promote broad spectrum disinfectant in effective and efficient contact times. Soiled surfaces require a preclean step.

## Wipes Dispenser Rack

Available wall mountable tub rack facilitates increased compliance by making it easier to have a disinfectant wipe within reach. Tubs sold separately.

## Evaculine maxblast™

### Evaculine maxblast Evac System Purging Pitcher

maxill is excited to introduce a pitcher perfect, innovative new product designed and developed to make evacuation system cleaning a breeze! The feature packed Evaculine maxblast Evac System Purging Pitcher is the perfect match for your favourite maxill evacuation system cleaning solution.

Evaculine maxblast..... #60033

**\$79.99** each

#### Spill Stopper Lid

Snug fitting, easy pour lid prevents spills

#### Smooth Pour Spout

Smooth pour spout for cleaning cuspidors or pouring unused evacuation cleaning solution

#### Turbulent Suction

Suction tubes create a turbulent mixture of air and cleaning solution to clean your evacuation system

#### Wide Base

Extra wide base provides stability when preparing and aspirating evacuation cleaner

#### Dual High & Low Volume Ports

Dual high and low volume ports molded into the lid for easy, spill free aspiration of evacuation cleaning solution

#### Easy Grip Handle

Ergonomic, wide grip handle design makes traveling between operatories a breeze

#### 3.2 Quart Capacity

3.2 quart capacity with graduated markings holds enough solution to clean 3 operatories

#### Translucent Design

The translucent design makes it easy to see the level of liquid in the pitcher

### Pairs perfectly with your favorite maxill evacuation cleaning solution

Use with any one of maxill's Canadian made evacuation system cleaning solutions to keep your evacuation system running at full capacity

## Evaculine Pro-Tabs™

### END OF DAY TREATMENT

Use Evaculine Pro-Tabs to restore and maintain the flow and functionality of your evacuation system and drain. Our unique bio-enzymatic formulation helps keep your evacuation system running at full capacity. Aspirate one Pro-Tab at the end of each work day to help prevent backflow, costly downtime, and expensive service calls.

Evaculine Pro-Tabs is a synergistic blend of micro-organisms, enzymes, and micronutrients that work to eliminate organic build-up and suction debris in the dental evacuation system. The solid bio-enzymatic formulation dissolves into tiny particles that contain bacteria and enzymes that stick to organic waste in the lines and break it apart.

Keep your gunk busting line ecology alive by using Zymax between patients. Avoid flushing with other harsh acids or cleaners that will kill off your hidden microscopic gunk busting warriors.

Evaculine Pro-Tabs ..... #60335  
(26 tablets per tube)

## Process Monitoring Procedural Indicators

maxill Process Monitoring Procedural Indicators make it easy to test the efficacy of your ultrasonic bath or washer-disinfector. There are four color-coded indicators with different wash-off characteristics available to monitor cleaning efficiency. The self-adhesive backing of the indicators makes it easy to log results. An evaluation kit is available to determine the correct color of indicator for your ultrasonic bath or washer-disinfector. Indicator holders and clips are sold separately.

**Safeguard™ Sterilization Wrap**
**SMMS Sterilization Wrap**

**Safeguard™ SMMS Sterilization Wrap** is softer and stronger than ever, yet still delivers the barrier protection features you expect from one of the leaders in sterilization packaging.

- Low linting material allows for better adhesion of sterilization tape
- Textured pattern allows for steam tape to stick better, providing a solid seal
- Stronger material provides more resistance to tears and punctures, keeping packaged contents sterile
- Great tensile strength - wet or dry
- Strong drapeability permits items to be wrapped tightly, reducing the chance for external contaminants to penetrate through gaps
- Suitable for Steam, ETO and Gamma Sterilization

**Paper Sterilization Wrap**

**Safeguard™ Paper Sterilization Wrap** has a soft embossed crepe finish and is now stronger than ever while delivering the barrier protection features you expect from one of the leaders in sterilization packaging.

- Manufactured from environmentally friendly cellulose wood pulp paper
- An effective barrier to both airborne and waterborne contamination
- Outstanding liquid repellency - water, alcohol, iodine
- Even texture to permit immediate visual detection of small pinholes/tears
- Strong drapeability permits items to be wrapped tightly, reducing the chance for external contaminants to penetrate through gaps
- Suitable for Steam, ETO and Gamma Sterilization

Cable Saver protects your sensor cables from being stepped on, rolled over, twisted, and tangled. Easy to install and easy to keep clean, Cable Savers will add years to the life of your sensor cables. Sold in 8 foot lengths. Simply cut to size!

#80500 (8' Length)

**\$43.79** each

## Impression Material

### maxill SUPER LIGHT BODY VPS Impression Material

maxill Super Light Body is an extremely low viscosity impression material with optimized thixotropy and extra hydrophilic properties. The exceptional elastic recovery, tear strength, and low dimensional change are the essential characteristics for perfect and accurate impressions.

Use with Mixing Tip:  
maxill Item #53412 or #53406

Fast ..... #53795  
Total setting time: 3:00 minutes\*

**\$39.99** per box  
(4 x 50 mL Cartridge)

**\$38.99** per box (4+ boxes)  
(4 x 50 mL Cartridge)

**= \$9.75** per cartridge

### maxill LIGHT BODY VPS Impression Material

maxill Light Body is a low viscosity impression material recommended for use as a wash material in single step (sandwich) or double step techniques.

Use with Mixing Tip:  
maxill Item #53412 or #53406

Fast ..... #53788  
Total setting time: 3:00 minutes\*

Regular ..... #53789  
Total setting time: 4:30 minutes\*

**\$29.99** per box  
(4 x 50 mL Cartridge)

**\$26.99** per box (4+ boxes)  
(4 x 50 mL Cartridge)

**= \$6.75** per cartridge

### maxill MONOPHASE VPS Impression Material

maxill Monophase is a medium viscosity impression material recommended for use in the monophase technique.

Use with Mixing Tip:  
maxill Item #53415 or #53408

Fast ..... #53784  
Total setting time: 3:00 minutes\*

Regular ..... #53785  
Total setting time: 4:30 minutes\*

**\$29.99** per box  
(4 x 50 mL Cartridge)

**\$26.99** per box (4+ boxes)  
(4 x 50 mL Cartridge)

**= \$6.75** per cartridge

### maxill HEAVY BODY VPS Impression Material

maxill Heavy Body is a high viscosity impression material recommended for use as a tray material in single step (sandwich) or double step techniques and in implantology.

Use with Mixing Tip:  
maxill Item #53414 or #53407

Fast ..... #53782  
Total setting time: 3:00 minutes\*

Regular ..... #53783  
Total setting time: 4:30 minutes\*

**\$29.99** per box  
(4 x 50 mL Cartridge)

**\$26.99** per box (4+ boxes)  
(4 x 50 mL Cartridge)

**= \$6.75** per cartridge

### maxill maxset High Precision Alginate

maxset is a high quality non-chromatic alginate with excellent elasticity and tear resistance.

- ▶ Repourable
- ▶ Long shelf life
- ▶ Remarkable tear strength

Flavor: Mixed Berry  
Final color: Orange

15.9 oz bag ..... #53776

1m 35s initial setting time\*  
7 day pour-up time  
(20 bags per case)

**\$9.99** per bag  
**\$9.19** per bag (1 case)

#### Empty Storage Canister

For maximum shelf life store maxset tightly sealed in its original packaging inside a maxset storage canister. Properly stored maxset will maintain its characteristics for 5 years.

maxill maxset Storage Canister ..... #53776T  
(storage for 1 bag of maxill maxset Alginate)

**\$3.59** per canister

### maxill chromamax High Precision Alginate

chromamax is a high quality chromatic alginate with excellent elasticity and tear resistance. The chromatic phase indicator helps with the preparation of impressions regardless of environmental conditions, temperature changes or water hardness.

- ▶ Chromatic Phase Indicator
- ▶ Long shelf life
- ▶ Remarkable tear strength

Flavor: Spearmint Final color: Blue

15.9 oz bag ..... #53775

1m 35s initial setting time\*  
7 day pour-up time  
(20 bags per case)

**\$9.99** per bag  
**\$9.19** per bag (1 case)

#### Empty Storage Canister

For maximum shelf life store chromamax tightly sealed in its original packaging inside a chromamax storage canister. Properly stored chromamax will maintain its characteristics for 5 years.

maxill chromamax Storage Canister ..... #53775T  
(storage for 1 bag of maxill chromamax Alginate)

**\$3.59** per canister

# Impression Material

## maxill LIGHT BODY HTS VPS Impression Material

maxill Light Body HTS is characterized by its very high tear strength and accuracy values thus guaranteeing superior resistance to tear upon removal from the mouth.

Use with Mixing Tip:  
maxill Item #53412 or #53406

HTS (Fast) ..... #53790  
Total setting time: 4:15 minutes\*

**\$33.98** per box  
(4 x 50 mL Cartridge)

**= \$8.49** per cartridge

## maxill ALGINATE FREE VPS Impression Material

maxill Alginate Free is a medium viscosity impression material suitable for use as an alternative for all alginate applications.

Use with Mixing Tip:  
maxill Item #53414 or #53407

Fast ..... #53791  
Total setting time: 3:00 minutes\*

**\$26.99** per box  
(4 x 50 mL Cartridge)

**= \$6.75** per cartridge

## maxill BITE REGISTRATION VPS Impression Material

**Traditional** - A standard bite registration material based on vinyl polysiloxanes suitable for all types of bite registrations.

**Air** - A bite registration material with a mousse-like consistency based on vinyl polysiloxanes suitable for all types of bite registrations.

**Clear** - A transparent material based on vinyl polysiloxanes suitable for all types of bite registrations that require transparent matrices, as well as for silicone keys for composite restorations.

Use with Mixing Tip:  
maxill Item #53414 or #53407

Traditional (Fast) ..... #53792  
Total setting time: 1:15 minutes\*

Air (Fast) ..... #53793  
Total setting time: 1:15 minutes\*

Clear ..... #53794  
Total setting time: 3:00 minutes\*

**\$34.99** per box  
(4 x 50 mL Cartridge)

**\$33.98** per box (2+ boxes)  
(4 x 50 mL Cartridge)

**= \$8.49** per cartridge

## maxill HEAVY BODY BULK VPS Impression Material

maxill Heavy Body is a high viscosity impression material recommended for use as a tray material in single step (sandwich) or double step techniques and in implantology.

Regular ..... #53797  
Total setting time: 4:30 minutes\*

**\$69.99** per box (1 x 380 mL Cartridge)

## maxill PUTTY VPS Impression Material

maxill Putty is a very high viscosity, kneadable VPS preliminary impression material formulated to very accurately guide the flowable maxill wash materials to the clinically important surfaces.

Regular ..... #53780  
Total setting time: 4:30 minutes\*

Fast ..... #53781  
Total setting time: 3:00 minutes\*

**\$56.99** per box  
(1 x 400 g jar of putty base, 1 x 400 g jar of putty catalyst, 2 x measuring scoop)

## maxill Dispensing Gun

Suitable for dispensing most 1:1 and 2:1 50 mL cartridges.

maxill Dispensing Gun .. #91114

**\$30.69** each

\*Cartridge not included

## maxill Kwik Connect VPS Transfer System

The Kwik Connect VPS Transfer System makes it quick and easy to transfer any leftover impression material to another cartridge.

Prevent impression material waste and save money!

VPS Transfer System ... #53404  
(100 transfer connectors, 5 ribbon holders)

**\$29.99** per bag

## maxill Mixing Tips Dynamic Mixing Tips

maxill's high quality Dynamic Mixing Tips are the best option for you to use with your automatic impression material mixing systems.

Yellow ..... #53401  
Red ..... #53402

## Curing Light + Accessories

lumax<sup>GL</sup>

## Broad-Spectrum Guided Light LED Curing Light

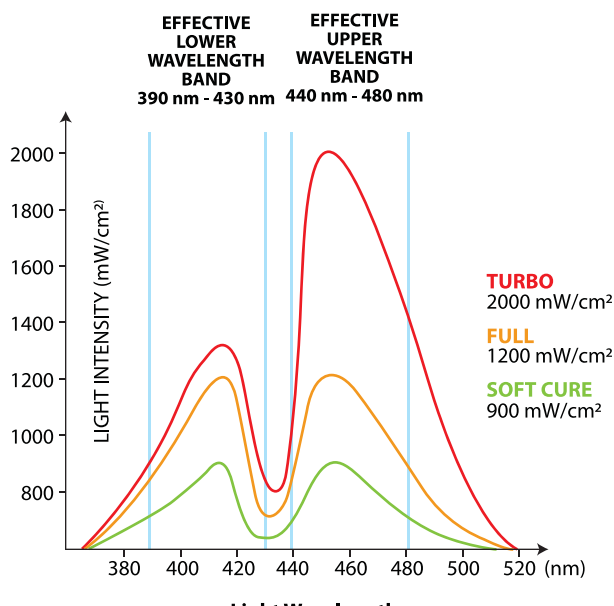

The maxill lumax GL is powerful and efficient with a max light intensity of 2,000 mW/cm<sup>2</sup> at 390-480 nm. With this powerful broad-spectrum light output the lumax GL is capable of curing all common light-cured dental material.

- Seven easy-to-use curing light modes and an automatic compensation circuit for consistent, reliable power.
- Large 11 mm, autoclavable light guide illuminates a larger curing surface helping reduce the need for multiple curing cycles when dealing with larger restorations.
- Light guide and eye shield both rotate 360° to accommodate different techniques and help reach all areas of the mouth.
- The lightweight (204 g), well-balanced design features a fully sealed membrane for easy disinfection.
- Compact charging station with a built-in light intensity meter and charge indicator.

Item #91205

**\$679.99** each

Includes: 1 LED Curing Light, 1 Charging Station, 1 Light Shield & 100 Curing Light Sleeves

## SPECIFICATIONS

F.O. LIGHT GUIDE		11 mm (dia.)
LIGHT WAVELENGTH		390-430 nm    440-480 nm
APPLICATION		Ortho / General
MODE	TACK	2,000 mW/cm <sup>2</sup> for 1 second ± 10%
	TURBO	2,000 mW/cm <sup>2</sup> for 4 seconds ± 10%
	3' + 3'	2,000 mW/cm <sup>2</sup> for 3 + 3 seconds ± 10% (with 1 second blink in between)
	6' + 6'	1,500 mW/cm <sup>2</sup> for 6 + 6 seconds ± 10% (with 1 second blink in between)
	FULL	1,200 mW/cm <sup>2</sup> for 5, 10, 15, 20 seconds ± 10%
	RAMP	First five seconds from 0-1,200 mW/cm <sup>2</sup> ± 10%, next 5, 10, 15, 20 seconds 1,200 mW/m <sup>2</sup> ± 10%
	SOFT CURE	First five seconds from 0-900 mW/cm <sup>2</sup> ± 10%, next 5, 10, 15, 20, 25 seconds 900 mW/cm <sup>2</sup> ± 10%

## CURING LIGHT MODE APPLICATIONS

<b>TACK</b>	Tack cure, a very short initial curing for temporary processing before final cure. E.g. veneer bonding or temporary cement for in-position and easy removal of excess material.
<b>TURBO</b>	Super fast curing for resin and composite under 2 mm thickness. Also recommended for ceramic brackets, veneers bonding etc.
<b>3' + 3'</b>	3 Seconds Mesial + 3 Seconds Distal for metal brackets resin bonding (with a 1 second blink in between)
<b>6' + 6'</b>	6 Seconds Mesial + 6 Seconds Distal for metal brackets with bonding resin requiring more curing time, and buccal tubes bonding (with a 1 second blink in between)
<b>FULL</b>	For general applications
<b>RAMP</b>	With first 0-5 seconds ramped for general application
<b>SOFT CURE</b>	With first 0-5 seconds ramped for more gentle processing, designed for patients sensitive to heat

## DEPTH OF CURE - lumax GL

MODE	Intensity mW/cm <sup>2</sup>	Time	Depth Measurements	ISO 4049 Depth Measurements (~50%)
TURBO	2,000 ± 10%	4 seconds	4.3 mm	2.15 mm
FULL	1,200 ± 10%	10 seconds	4.4 mm	2.20 mm
RAMP	1,200 ± 10%	10 seconds	4.2 mm	2.10 mm
SOFT CURE	900 ± 10%	15 seconds	4.6 mm	2.30 mm

Above data is based on test results using an A2 shade composite. The light tip was placed above and pointed perpendicular to the composite. Tests were done as per ISO 4049 Standard. The samples were measured and the data was divided by two (50% of the total composite depth cured). ISO 4049 Standard requires that the results for class II restorative materials should be at least 1.5 mm for non-opaque shades and 1.0 mm for opaque shades. All resins and composites have different curing times. It is recommended that you should test your resins and composites performance to determine curing times required.

lumax<sup>GL</sup> Accessories+ReplacementParts

## Curing Light Meter

- LED & Halogen Curing Light Meter
- Simple, compact design for easy use
- Measures intensity up to 2500 mW/cm<sup>2</sup>

All thermal plastic sheets are available as a standard 5"x5" square as well as a 125 mm or 120 mm round sheet. Ask your sales representative for details.

### PRO-FORM PF2

#### Boil & Bite Mouthguard

The PF2 is designed for use with any sport, especially contact sports. The major difference that separates PF2 from the traditional custom-fit Pro-Form is that it's a boil-and-bite that fits like a custom guard.

Black ..... #9601300  
White..... #9601301

**\$38.00** each

A minimum order of 2 packs is required for non-stocked items. Please allow 2 weeks for delivery on special orders. Speak to your representative for details.

### PRO-FORM

#### Mouthguard Resin Sheets

The .160 (4mm) thick Pro-Form Mouthguard Resin Sheets are soft for energy absorption, adding more protection. The resin is perfect for mouthguards and niteguards. (25 sheets per pack)

### Machine III Vacuum Former

This machine is used to process bleaching trays, sports mouthguards, implant stints, temporary splints, custom impression trays, denture bases, copings, temporary crowns and bridges and orthodontic appliances.

Vacuum Former ..... #7000330

**\$434.95**

### Electric Knife

The Pro-Form Electric Knife can trim and cut most thermoplastic dental materials. It cuts easily and smoothly with extra heat at the tip and is excellent for bleaching trays, impression trays, splints, mouthguards and more.

Electric Knife ..... #9144730

**\$397.55**

## Ultrasonic Scalers

### **maxi-cav** **25K/30K**

#### DUAL FREQUENCY ULTRASONIC SCALER

The **maxill maxi-cav Dual Frequency Ultrasonic Scaler** is an extremely versatile, easy-to-use unit. The **maxi-cav** automatically detects whether a 25K or 30K tip is being used and switches the frequency to the appropriate setting.

Choose from a range of power settings including low-power debridement for routine scaling and high power for heavy calculus removal. By using the included foot pedal, turbo power can be applied for exceptionally stubborn calculus removal.

The **maxi-cav** offers all of these features in an incredibly small and lightweight unit. Its compact size doesn't waste valuable counter space and makes the unit extremely portable.

Insert sold separately.

### **maxi-cav** **25K/30K** Dual Frequency Ultrasonic Scaler

**Includes:** 1 Ultrasonic Scaler Unit, 2 Autoclavable Handpiece Sheaths, 1 In-line Water Filter with Spare Disk, and 1 corded Foot Pedal.

## INSERT WEAR INDICATOR GUIDE

### HOW TO USE THIS WEAR INDICATOR GUIDE

- 1 Position the base of the insert tip to the top of the orange bar and align the curve with the appropriate diagram (fig 1.).
- 2 Rotate the insert as needed so that the tip is flat against the page.
- 3 Check the tip length against the red and blue guide lines.  
Below the **blue line** - **your insert is 25% less efficient** and should be reordered.  
Below the **red line** - **your insert is 50% less efficient** and should be discarded.

**\$13.00** each

## Zirc Color Selection:

Due to high demand, some colors may take up to 5 days to arrive.

### Classic Color Collection

<b>A</b> White	<b>G</b> Beige
<b>B</b> Blue	<b>I</b> Gray
<b>D</b> Green	

### Vibrant Color Collection

<b>N</b> Neon Blue	<b>Q</b> Neon Orange
<b>O</b> Neon Yellow	<b>R</b> Neon Purple
<b>P</b> Neon Green	<b>S</b> Neon Pink

### Jewel Color Collection

<b>E</b> Plum	<b>I</b> Gray
<b>J</b> Teal	<b>M</b> Red
<b>T</b> Midnight	<b>U</b> Copper

Color Coding is the most effective way to organize. With procedures organized in color, it creates less confusion for all office staff and generates a more efficient work environment. Color Coding provides information at a glance without having to read labels or sort through materials.

## SINGLE COLOR

### IMPRINTED

Promote your practice with a huge assortment of imprinted dental products from maxill. Imprinted dental items cost very little and keep on communicating your advertising message for months!

Contact your sales rep or call **1-855-462-9455** to find out more information about maxill's custom imprinting.

**Imprinting:** Plate setup fees may apply.

Logos, specialty fonts and custom graphics can sometimes be used and must be supplied by customers. Call one of our sales representatives at **1-855-462-9455** for file format requirements. Logo files and specialty graphics can then be sent to [imprinting\\_us@maxill.com](mailto:imprinting_us@maxill.com).

**Please Note:** Gold ink is not recommended for any light colored items. There is only one ink color allowed per minimum order.

Ortho Wax	100	Black, Gold	34 mm x 18 mm
Brushing Timers	300	Black	50 mm x 5 mm

HD imprinting, also known as high-definition imprinting, is a revolutionary printing technology first offered to dental professionals by maxill. This form of printing allows us to print full-color, photo-realistic images onto imprintable products from our catalog.

It all starts with a call to maxill Customer Service (**1-855-462-9455**) or your friendly maxill Customer Representative. They can help you with the products you want to imprint and assist you in getting your own unique artwork ready for your order. Email is an invaluable tool to speed up the process of getting the look you want.

Download the Imprinting Request Form from [www.maxill.com/us/imprinting](http://www.maxill.com/us/imprinting), fill it out and email it to [imprinting\\_us@maxill.com](mailto:imprinting_us@maxill.com). Once your order has been received, a sales representative will follow up with you to confirm your order.

## PRICES

- Suggested list prices are subject to change without notice.
- Applicable taxes are extra.
- While great care is taken to ensure the accuracy of pricing in this catalog, in the event a product is listed at an incorrect price due to an error, maxill reserves the right to refuse, or cancel any orders placed for product at the incorrect price.

## TERMS OF PAYMENT

- Net 30 days. Orders may be held for accounts in default of credit terms.
- A \$30.00 (per check) fee will be charged for N.S.F. checks.

## CREDIT APPROVAL

- Possession of a catalog or price list does not constitute a commitment by maxill to establish an account or extend credit to any person or company.

## FREIGHT & MINIMUMS

- Orders over \$400 have shipping included. Shipping surcharges may apply for certain rural or remote areas. Orders under \$400 are subject to a \$23.00 shipping & handling fee.

## DANGEROUS GOODS

- A Dangerous Goods Surcharge may apply to certain chemicals (as noted by \*DGS in catalog). At time of printing, this DGS charge is \$28.00 (subject to change without notice)

## RETURNED GOODS

- Goods may not be returned without prior authorization from maxill. All returns must be authorized by our customer service department who will also make appropriate arrangements for the pick-up of the product.
- Your invoice number is required for all returned product.
- A restocking charge and courier return fee may apply.
- Special orders and open product are not returnable. Products that are not properly packaged for return shipping are subject to inspection before determining if credit will be issued.
- maxill reserves the right to refuse returns for product that has been in your possession for more than 30 days.

## SHORTAGES

- In order for maxill to take action on items that may have been shorted on your order, we must be notified within five days of receiving the order. maxill will not be responsible for shortages after this period.

## DAMAGE CLAIMS

- It is the responsibility of the carrier to deliver the merchandise in good condition. Please inspect all deliveries in the presence of the carrier. Should you receive any damaged merchandise, contact maxill immediately. Leave the goods in the box you received them, along with all packing materials. It is possible that a representative of the carrier will visit you to inspect the damaged items.
- Due to strict rules pertaining to damages by the carrier, maxill inc. cannot be responsible for damaged items if these instructions are not followed.

## BACK ORDERS

- Please refer to the B/O (Back order) column on your invoice for items that were not available at the time your order was shipped. We will notify you via telephone when the product becomes available.

## ORDER ADD ONS

- We pride ourselves on fast, efficient and quality service. To ensure that you receive your product as quick as possible, orders are processed for delivery as they are submitted. We are only able to add items to an existing order within 60 minutes from the time the original order was placed, otherwise, the orders will be processed separately and additional shipping fees may apply

# Payment & Service

4 Convenient Ways to Pay:

1. Cash at our office in Cortland, OH.
2. Check or Money Order made payable to "maxill inc". Please include your customer number on your checks.
3. VISA or MasterCard by calling us at 1-855-4-MAXILL or by logging into our website at [www.maxill.com](http://www.maxill.com)
4. EFT/Direct Deposit

**maxill always makes it right. Not only do we do our best to make quality products but we try to make all customer service issues right as well. If there is ever a problem, we will fix it.**

## Notes

## WHAT IS MAXILL CONTINUING EDUCATION?

The maxill continuing education program is an ongoing series of courses designed to keep your office up to date on a variety of topics and techniques. maxill CE components are created with our audience in mind and include information from the following credible and industry focused sources:

- American Dental Association (ADA)
- Centers for Disease Control and Prevention (CDC)

maxill Inc.  
Nationally Approved PACE Program  
Provider for FAGD/MAGD credit.  
Approval does not imply acceptance by  
any regulatory authority or AGD endorsement.  
3/1/2019 to 2/28/2023  
Provider ID# 303433

The most important part of education is making sure it is credible, correct and applicable to the audience, you. All of our CE courses are updated to meet current guidelines and are customized to meet the specific needs of your office.

## HOW DO I SCHEDULE A PRESENTATION?

To book an appointment or to find out more information email us at [ce@maxill.com](mailto:ce@maxill.com) or call 1-855-462-9455 to speak with a maxill sales representative.

### STERILIZATION MONITORING (1 HOUR/CREDIT)

Ensuring sterility is an obligation of the health care provider to protect the health and safety of patients in all medical settings. This maxill Continuing Education component will present the current best practice protocols for sterilization monitoring and assurance. This educational component focuses on cited protocols of respected state and federal authorities. This course will provide you with a solid understanding of sterilization monitoring and the tools necessary to develop your own protocols to meet compliance.

### SURFACE DECONTAMINATION

Surface Decontamination is the process of removing and destroying organisms from surfaces in medical settings. Although this procedure sounds very straight forward there are multiple aspects of surface decontamination that must be taken into consideration in order to develop a proper SD protocol in your setting. This course will provide you with a solid understanding of SD as well as the tools necessary to develop your own SD protocols.

### INSTRUMENT REPROCESSING

This maxill Continuing Education component will detail the ideal process and steps involved in reprocessing in accordance with current best practice documents. It is important to remember that not every office or situation is the same, and thus individual processing cycles should be tailored to meet the needs or constraints of your office. This course will provide you with a solid understanding of IR and the tools necessary to develop your own IR protocols.
