

maxill
DENTAL PRODUCT CATALOGUE

www.maxill.com 1-800-268-8633

We are pleased to present our 2023/2024 catalogue that contains more products than ever before. maxill continues to enjoy growth and in the past year thousands of new Canadian dental customers have discovered maxill and the unique business model we offer.

The success of maxill is no secret. Many companies talk about the ingredients of success but few companies follow through on the execution of the success formula.

Savings

Dental professionals have come to know maxill as the most competitively priced supply source that they can rely on for the many product lines we offer. Take a good look at maxill's transparent everyday pricing formula in this catalogue, our online store, and our separately published promotional flyers. Compare maxill pricing to what your current provider is charging and you will quickly see how dental professionals across Canada save thousands of dollars by choosing maxill.

Quality

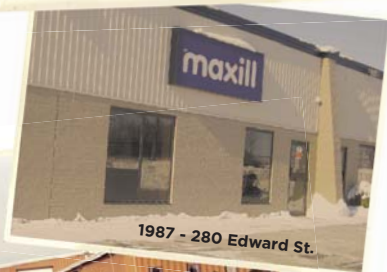

There is an old saying; the bitterness of poor quality remains long after the satisfaction of a low price. maxill customers know that they never sacrifice quality and in many cases actually get a better quality product at a lower price. Give maxill a try to see for yourself.

Reliability and Customer Service

Our customers know that when they call 1-800-268-8633 or when they speak to their local or inside account representative, they will be looked after. Whatever problem, issue, question or timeline they require, they will be served promptly. When you call maxill during regular business hours, you have the ability to access a person and not a machine. maxill has an order fulfilment rate of more than 99% which is the best in the industry. maxill has large warehouses in both Ontario and Alberta that ship thousands of parcels everyday to customers Canada wide.

PROUDLY CANADIAN

President's Message

maxill got its start in St. Thomas, Ontario over 37 years ago in a rented 1,000 square foot industrial unit on the east side of town. maxill was only a toothbrush company back then. The company's first products were the #330 and #440 toothbrush models, which we still sell today. It was the advice, recommendations and guidance of our dental customers that pointed the way to our fantastic growth over the ensuing years.

Each year it is satisfying to see that the company gets bigger and better. More importantly, it is imperative that we also get better at serving the dental community on which we were founded.

If you have any questions, comments or if I can be of assistance in any way, please feel free to contact me at anytime. I can be reached at johnshaw@maxill.com.

We know you have choices out there and we thank you for choosing maxill.

Take the guesswork out of your IPAC compliance

Keeping up with new regulations and making sure you are meeting existing ones is an overwhelming and very stressful task. maxill is here to help! maxill has the tools, products and resources to guide you through the process and ensure you stay up-to-date and inspection ready.

Whether it be a baseline IPAC assessment, a policies and procedures manual tailored to your office or ongoing support, maxill has you covered.

maxill IPAC IN A BOX

maxill's IPAC In A Box is a crash course designed to get your office up to speed with your Infection Prevention and Control policies and procedures. We'll dive right into some of the most common areas of non-compliance and help you separate fact from fiction to confidently navigate current rules and regulations.

tb Minuteman NEX GEN Disinfectant Wipes are a new addition to maxill's line-up of hard surface disinfectants. When used as directed, tb Minuteman NEX GEN Disinfectant Wipes will disinfect in 1, 2 and 3 minutes against all the same microorganisms as tb Minuteman Hard Surface Disinfectant Towelettes. In addition to disinfecting against HIV-1, tb Minuteman NEX GEN Surface Disinfectant Wipes have the added benefit of disinfecting against Hepatitis B (DHBV) and Hepatitis C (BVDV) to assure significant reduction of risk of cross-infection from these three commonly feared bloodborne viral pathogens.

- Broad Spectrum Bactericide, Virucide, Mycobactericide and Fungicide
- Meets CDC guidelines for intermediate level surface disinfection
- Cleaner and disinfectant in one product; save money, time and storage space
- Compatible with a wide range of hard, non-porous surfaces
- Low lint, heavy duty, non-woven, pre-saturated wipes, 6" x 7"
- Packaged in recyclable HDPE tubs with self-closing dispenser lids
- Convenient refill rolls are available to reduce waste and save you money
- Available in a convenient bottle with sprayer and an economical refill jug

Evaculine maxblast. #60033

Evaculine Pro-Tabs™

END OF DAY TREATMENT

Use Evaculine Pro-Tabs to restore and maintain the flow and functionality of your evacuation system and drain. Our unique bio-enzymatic formulation helps keep your evacuation system running at full capacity. Aspirate one Pro-Tab at the end of each work day to help prevent backflow, costly downtime, and expensive service calls. Evaculine Pro-Tabs is a synergistic blend of micro-organisms, enzymes, and micronutrients that work to eliminate organic build-up and suction debris in the dental evacuation system. The solid bio-enzymatic formulation dissolves into tiny particles that contain bacteria and enzymes that stick to organic waste in the lines and break it apart.

maxill steri-sox Multi-Channel Sterilization Pouches

Skip the cassette with maxill steri-sox Multi-Channel Sterilization Pouches! Available in 2, 4 and 6 channel pouches, the multi-channel pouches introduce a new alternative to pouching or wrapping cassettes. Unlike a cassette, the plastic window allows you to easily view the contents and reduces labelling requirements. The channels keep instruments separated during sterilization and allow for the full navigation of steam. Internal (Type 4) and external (Type 1) steam indicators meet Type 4 requirements for quality sterilization pouches.

2 Channel Pouch
3.8" x 11" #60147
(200 per box, 20 boxes per case)

4 Channel Pouch
6" x 11" #60148
(200 per box, 10 boxes per case)

6 Channel Pouch
9" x 11" #60149
(200 per box, 10 boxes per case)

Ster-FX Instrument Soaking Bin

The Ster-FX BIN is a germicide tray designed for soaking instruments in a variety of solutions including enzymes, detergents, phenolics, glutaraldehydes and other sterilizing, disinfecting and pre-soaking solutions.

- Dials on lid can be used to keep track of when items are to be removed and/or when the solution needs to be changed
- Interior tray features a perforated diamond design allowing for quick drain-off and easy transfer of instruments

Ster-FX BIN #81108

- 2 tier tray provides convenient hands free draining
- Holds 4 litres of liquid and has easy pour corners for disposal of solution
- Hinged, fitted cover helps prevent spills and contain odours

Ster-FX E-Z BEAK (Beaker) ... #81109

maxill Impulse Sealer

A built in adjustable timer and 10 mm heating element ensures a perfect seal. Customize your pouch size and save time by using the built in cutting blade with our maxill brand sterilization rolls. 2 year warranty included.

Impulse Sealer #81110

Ampoule Crusher

The ampoule crusher is designed for use with self-contained biological indicators for crushing the vial prior to incubation.

Crusher#81122

maxill Sterilization Tubing

The tubing has type 4 process indicators to let you know that they were sterilized. For use in steam, chemical vapor and EO sterilizers. Manufactured with blue see through and puncture resistant plastic laminated onto extra strength medical grade paper.

2" x 98' #60045

4" x 98' #60046

6" x 98' #60047

maxill Autoclave Tape

The tape has diagonal stripes that will darken, indicating that the sterilization process is complete.

- Strong adhesive
- Pressure-sensitive
- Lead free

1 bag of 260 SI LR's, 1 PCD)

Master Starter Kit..... #81113
(u-test Incubator, 5 box of 50 BIs)

**maxill u-test BI Plus™ Biological Indicator Plus**

*For use with Steam Sterilization

The BI Plus™ features a built in Class/Type 5 chemical indicator. This allows the results to be instantly evaluated at the end of the sterilization process, eliminating the need to wait 24 hours for the outcome of the SCBI incubation. For verification, a failed sterilization process is indicated by a colour change in the growth media from purple to yellow. For use in 132°C to 137°C steam cycle type sterilization.

Biological Indicator Plus #81151
(Sold in boxes of 10 indicators)

**maxill u-test BI Biological Indicators**

These u-test BIs exhibit a dramatic colour change from purple to yellow in the event of bacterial growth, indicating a failed sterilization process.

Biological Indicators #81150
(Sold in boxes of 50 indicators)

**maxill u-test PCD**
Process Challenge Device

A process challenge device (PCD) is used to monitor the performance of the sterilization process. The maxill u-test PCD simulates the most challenging instrument to sterilize and has been designed to hold a maxill Biological Indicator and a Type 5 Chemical Integrator.

- Simulates the most difficult instrument within the sterilization load
- Easy-to-use, consistent, reproducible challenge
- Manufactured with lightweight, durable aluminum and lasts for an unlimited number of cycles without a change in performance.

(10,000 integrators per bag)

**maxill u-test BDS**
Bowie-Dick Simulation Test

The Bowie-Dick Simulation Test is used at the beginning of every day with pre-vacuum steam sterilizers (Scican Bravo, Adec Lisa, Tuttnauer Elara 11) to verify proper air removal from the autoclave chamber. Proper sterilization can be inhibited by pockets of air in the chamber that can act as a barrier and prevent steam from penetrating into wrapped or packaged items.

The test consists of an external plastic casing with an internal stainless steel tube that acts as an air removal and steam penetration barrier. An internal capsule holds a chemical indicator strip that indicates all air was removed and replaced with steam.

Bowie-Dick Simulation Test ... #81192
(1 process challenge device, 100 Bowie-Dick test strips per box)

aquist Infrared Forehead Thermometer

The thermometer measures people's body temperature by detecting the intensity of infrared light emitted from the forehead.

Thermometer.....#81415

Impression Material

maxill SUPER LIGHT BODY VPS Impression Material

maxill Super Light Body is an extremely low viscosity impression material with optimized thixotropy and extra hydrophilic properties. The exceptional elastic recovery, tear strength, and low dimensional change are the essential characteristics for perfect and accurate impressions.

Use with Mixing Tip:
maxill Item #53412

Fast#53795
Total setting time: 3:00 minutes*

maxill LIGHT BODY VPS Impression Material

maxill Light Body is a low viscosity impression material recommended for use as a wash material in single step (sandwich) or double step techniques.

Use with Mixing Tip:
maxill Item #53412

Fast#53788
Total setting time: 3:00 minutes*

Regular#53789
Total setting time: 4:30 minutes*

maxill MONOPHASE VPS Impression Material

maxill Monophase is a medium viscosity impression material recommended for use in the monophase technique.

Use with Mixing Tip:
maxill Item #53415

Fast#53784
Total setting time: 3:00 minutes*

Regular#53785
Total setting time: 4:30 minutes*

maxill HEAVY BODY VPS Impression Material

maxill Heavy Body is a high viscosity impression material recommended for use as a tray material in single step (sandwich) or double step techniques and in implantology.

Use with Mixing Tip:
maxill Item #53414

Fast#53782
Total setting time: 3:00 minutes*

Regular#53783
Total setting time: 4:30 minutes*

maxill LIGHT BODY HTS VPS Impression Material

maxill Light Body HTS is characterized by its very high tear strength and accuracy values thus guaranteeing superior resistance to tear upon removal from the mouth.

Use with Mixing Tip:
maxill Item #53412

HTS (Fast)#53790
Total setting time: 4:15 minutes*

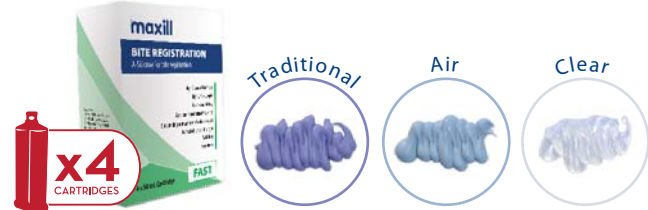

maxill ALGINATE FREE VPS Impression Material

maxill Alginate Free is a medium viscosity impression material suitable for use as an alternative for all alginate applications.

Use with Mixing Tip:
maxill Item #53414

Fast#53791
Total setting time: 3:00 minutes*

maxill BITE REGISTRATION VPS Impression Material

Traditional - A standard bite registration material based on vinyl polysiloxanes suitable for all types of bite registrations.

Air - A bite registration material with a mousse-like consistency based on vinyl polysiloxanes suitable for all types of bite registrations.

Clear - A transparent material based on vinyl polysiloxanes suitable for all types of bite registrations that require transparent matrices, as well as for silicone keys for composite restorations.

Use with Mixing Tip:
maxill Item #53414

Traditional (Fast) . . #53792

maxill

Disposable Dappen Dishes

Convenient side tabs form a handle allowing the dappen dish to be used as a prophylaxis paste cup. Use the black dishes for light-curing material, and cover with another black dappen dish to prevent unintended curing.

Assorted Colours (no black) #53112
Black #53110
(1000 per box)

maxill

Mixing Wells

maxill disposable wells are a cost effective and time saving option to help avoid cross contamination. Sturdy light-weight plastic design includes a positioned groove to hold a brush or spatula while you work.

2 well configuration #53231
(200 wells per box)

4 well configuration #53232
(180 wells per box)

Applicators

maxill mini-apps Disposable Resin Applicators

Colour coordinated for easy size identification, these resin mini-apps are bendable for complete control of application.

Super Small (Lavender) 1.55 mm	#53225
Small (Green) 2.0 mm	#53226
Small (Light Green) 2.0 mm	#53227
Regular (Blue) 2.5 mm	#53228
Regular (Light Blue) 2.5 mm	#53229
Cylinder (Black) 1.2 mm	#53230
(100 apps per tube)		

maxill Bendable Applicator Brushes

maxill disposable bendable brush heads bend to any angle and retain position by reducing bounce back. Made from chemical resistant fibers to withstand harsh dental materials such as whitening agents, etchants, bonding agents, sealants and resins.

Pink	#53237
Blue	#53238
(100 brushes per tube)		

Retraction Cords

maxill max-pak Knitted Retraction Cord

max-pak Knitted Retraction Cords are available in 6 sizes, ranging from Extremely-Fine to Thick. The cord is made from 100% cotton and is free of fluorescent whitening agents. max-pak features a bobbin inside the dispenser to prevent tangling, and the window makes it easy to see how much retraction cord is left.

Non-impregnated

Size 0000 - Extremely-Fine - Black/Blue	#53849
Size 000 - Ultra-Fine - Black/Grey	#53850
Size 00 - Extra-Fine - Brown/Yellow	#53851
Size 0 - Fine - Purple/Light Purple	#53852
Size 1 - Medium - Blue/Light Blue	#53853
Size 2 - Thick - Green/Light Green	#53854
(305 cm/120 inches per dispenser)		

Bobbin Inside

max-pak features a bobbin inside the dispenser to prevent tangling

Built-in Ruler

The built-in ruler makes it easy to accurately measure out the length you need

Natural

Made of 100% cotton, and contains no fluorescent whitening agents

Easy to Cut

The built-in blade makes it easy to cut the cord, reducing the chance of contamination

Window

The window in the dispenser makes it easy to see the remaining length of retraction cord

Mouthguards & Thermal Plastics

PRO-FORM

Mouthguard Laminates

Provide the ultimate custom experience with a Pro-Form Colour Mouthguard. The .160 (4 mm) thick laminates are available in 1, 2, or 3 colour combinations. Customize your colour combinations to match almost any team colours imaginable.

A minimum order of 3 packs is required for custom colour combinations. Please allow 3 weeks for delivery on custom orders. Speak to your representative for details.

PRO-FORM PF2

Boil & Bite Mouthguard

The PF2 is designed for use with any sport, especially contact sports. The major difference that separates PF2 from the traditional custom-fit Pro-Form is that it's a boil-and-bite that fits like a custom guard.

Black #9601300
White..... #9601301

A minimum order of 2 packs is required for non-stocked items. Please allow 2 weeks for delivery on special orders. Speak to your representative for details.

PRO-FORM Mouthguard Resin Sheets

The .160 (4mm) thick Pro-Form Mouthguard Resin Sheets are soft for energy absorption, adding more protection. The resin is perfect for mouthguards and niteguards. (25 sheets per pack)

A minimum order of 3 packs is required for special orders.

PRO-FORM Glitter Guards

Glitter guards add a little flash to your game while still maintaining the Pro-Form quality. Compliance, protection and style are all wrapped up in a sparkling presentation. (6 sheets per pack)

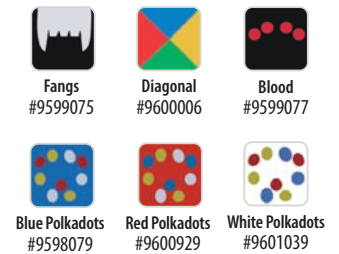

PRO-FORM Tie-Dye Mouthguards

The Pro-Form line added an explosion of colour with Tie-dye guards. The protection and economical features are still there, but now with an extra splash of colour. (6 sheets per pack)

PRO-FORM Fun Mouthguards

The Pro-Form line now has Fun guard designs to add even more options to the already extensive lines of styles and colours. (12 sheets per pack)

Machine III Vacuum Former

This machine is used to process bleaching trays, sports mouthguards, implant stints, temporary splints, custom impression trays, denture bases, copings, temporary crowns and bridges and orthodontic appliances.

Vacuum Former.....#7000330

Electric Knife

The Pro-Form Electric Knife can trim and cut most thermoplastic dental materials. It cuts easily and smoothly with extra heat at the tip and is excellent for bleaching trays, impression trays, splints, mouthguards and more.

Electric Knife#9144730

Curing Lights

lumax^{GL}Broad-Spectrum Guided
Light LED Curing Light

The maxill lumax GL is powerful and efficient with a max light intensity of 2,000 mW/cm² at 390-480 nm. With this powerful broad-spectrum light output the lumax GL is capable of curing all common light-cured dental material.

Item #91205

Includes:

- 1 LED Curing Light
- 1 Charging Station
- 1 Light Shield
- 100 Curing Light Sleeves
- 1 Fibre Optic Light Guide

lumax^{DL}Broad-Spectrum Direct
Light LED Curing Light

The maxill lumax DL delivers a powerful, consistent, collimated light beam with a max light intensity of 2,500 mW/cm². The broad-spectrum light output at 390-480 nm is capable of curing all common light-cured dental material.

Item #91200

Includes:

- 1 LED Curing Light
- 1 Charging Station
- 1 Light Shield
- 100 Curing Light Sleeves
- 1 Direct Light Source Head 10 mm

7 CURING LIGHT MODES

TACK

Tack cure, a very short initial curing for temporary processing before final cure. E.g. veneer bonding or temporary cement for in-position and easy removal of excess material.

TURBO

Super fast curing for resin and composite under 2 mm thickness. Also recommended for ceramic brackets, veneers bonding etc.

3' + 3'

3 Seconds Mesial + 3 Seconds Distal for metal brackets resin bonding (with a 1 second blink in between)

6' + 6'

6 Seconds Mesial + 6 Seconds Distal for metal brackets with bonding resin requiring more curing time, and buccal tubes bonding (with a 1 second blink in between)

FULL

For general applications

RAMP

With first 0-5 seconds ramped for general application

SOFT CURE

With first 0-5 seconds ramped for more gentle processing, designed for patients sensitive to heat

Curing Light Accessories & Replacement Parts

Curing Light Meter

- LED & Halogen Curing Light Meter
- Simple, compact design for easy use

Penlight

maxill oracue LED Examination Penlight

maxill oracue assists operators when excavating caries in already open cavities. Under the violet light exposure and through a filter, dentine carious areas are shown in red fluorescence, while healthy tooth material shows in green fluorescence. It's a quick and simple way to diagnose tooth fractures, detect carious lesions and visualize plaque, and locate hard-to-see root canals.

Valves

maxchek Backflow Prevention Valves

These unique, one-way autoclavable valves prevent backflow from the saliva ejector into the patient's mouth by closing off airflow when the suction is blocked or restricted. maxchek is inserted into the saliva ejector valve and holds the saliva ejector without affecting its performance. maxchek provides a vast assortment of colours which allow your dental office to 'colour code' per operatory and/or procedure(s).

 Purple with Clear Tip #53158
 (100 per bag, 10 bags per box)

**maxill** Surgical Aspirator Tips

Made with smooth edges for maximum patient comfort. These surgical aspirator tips are molded at a 30 degree angle and fit 11 mm suction holders.

Small (5/32" - 4 mm) #53090
 Large (9/32" - 7 mm) #53091
 Large Vented (9/32" - 7 mm) #53092
 (25 per bag, 20 bags per case)

Evacuation Traps & Screens

**maxill**
Disposable Saliva Ejector Screens

Disposable Saliva Ejector Screens replace clogged or corroded metal screens. Universal diameter ensures a perfect fit.

Saliva Ejector Screens #53133
 (144 per box)

**maxill**
Disposable HVAC / HVE Screens

Disposable HVAC / HVE Screens fit as a "cap" on most standard high volume evacuation tips. One size fits most.

HVAC Screens #53132
 (144 per box)

**maxill**
6100C Disposable Traps

Fits most Cuspidor Bowls including: Adec, Ampco, Belmont, Dabi-Atlante, Dansereau, DCI, Den-Tal-EZ, Forest, Knight, Marus, MDT, Proma, Ritter, and Schein - diameter is Universal. 2 1/2" flange and 1 1/4" basket

6100C #53130
 (144 per box)

**maxill**
6200C Disposable Traps

Fits Siemens, Planmeca, and many cuspidors with small diameter openings - diameter is Universal. 2 3/4" flange and 1" basket

6200C #53131
 (144 per box)

**maxill**
5501 Disposable Traps

Fits A-dec models with black plastic canisters, plus newer models by Ampco, Belmont, DCI, Forest, Marus, MDT and Schein - diameter is 2 1/8"

5501 #53126
 (144 per box)

**maxill**
5502 Disposable Traps

Fits A-dec models with metal canisters - diameter is 2 1/4"

5502 #53127
 (144 per box)

**maxill**
5503 Disposable Traps

Fits Ampco, Belmont, Biotec, Chayes, Dabi-Alante, Dansereau, DCI, Dental-EZ, Dentech, Forest, Knight, Pelton & Crane, Proma and others - diameter is 1 7/8"

5503 #53128
 (144 per box)

**maxill**
5506 Disposable Traps

Fits Den-Tal-Ez models with black plastic filters - diameter is 2 3/4"

5506 #53134
 (144 per box)

**maxill**
5509 Disposable Traps

Fits DCI/Belmont Reality models and System 6000 models - diameter is 1 1/2"

5509 #53129
 (144 per box)

Finishing

**maxill SS**
Finishing Strips

This single-sided stainless-steel electroplated finishing strip is used for finishing restorations and polishing interproximal surfaces. The smaller 2.5mm width and neutral, non-abrasive centre, allows these strips to ease between tight areas of teeth for precise finishing and polishing, without affecting the contact.

2.5 mm Wide
 Medium (Blue) #81430
 (12 per pack)

**maxill SS**
Serrated Full Saw Strips

The serrated stainless-steel strip is non-abrasive and commonly used to separate fused contacts and debride them of composites and cement. These strips can also assist in post-cementation procedures of crowns, veneers, bridges, inlays or onlays, allowing for easy removal of excess cement or unwanted materials.

4.0 mm Wide
 Serrated #81431
 (12 per pack)

maxill xacto stripz sawz Interproximal Reduction Strips

Saw: Non-abrasive/Serrated
All other strips: Abrasive/Non-serrated

The autoclavable xacto stripz sawz interproximal reduction (IPR) system has many uses such as orthodontic contact reduction, interproximal finishing and for removal of excess cements and restorative materials. It has a sequence of five strips - one saw and four abrasive strips for a gradual reduction. These can be used on their own manually or with the autoclavable handle, designed to hold the strips at 180 degrees or 45 degrees.

Zirc Instrument Holders & Organization

Colour Coding is the most effective way to organize. With procedures organized in colour, it creates less confusion for all office staff and generates a more efficient work environment. Colour Coding provides information at a glance without having to read labels or sort through materials.

Zirc Colour Selection: Due to high demand, some colours may take up to 5 days to arrive.

Dimensions: 7 1/2" x 5 3/4" x 7"

Item #17Z101(+ colour letter)

Zirc 18" Lab Pan Wall Strip

Drilled and countersunk with screws and wall anchors. 18" Wall Strip. Holds 3 Lab Pans.

Dimensions: 18" x 7/8" x 3/8"

Item #17Z104

Zirc Steri-Soaker

An efficient, high-volume germicide tray designed for maximum use of chemicals to clean/disinfect instruments. It is designed for easy cleaning and is large enough to accommodate ZIRC Steri-Containers, Cassettes, Bur Blocks, and Bur Guards.

Dimensions: 13 7/8" x 9 5/8" x 5 1/8"

Blue #50Z805B

Grey #50Z805I

SAFE-TO-USE CHEMICALS: cleaners (enzymes, detergents), disinfectants (phenols)/cold sterilants for glutaraldehyde and chlorines.

Zirc Syringe Composite Kit

Syringe holder allows you to store up to 40 syringe tubes. Kit includes: Syringe 20-Unit Stand, 1 Long Tub Cup/Cover, 1 Divided Slide Tray, 1 Syringe Clip-On Holder, Shade Label Sheet 2pk.

Item #20Z489

Zirc Capsule Composite Kit

Long Tub Cups provide a total of 20 compartments for capsule storage. Includes: Tub Liner, 4 Long Tub Cup/ Cover, 1 Divided Slide Tray, 1 Capsule Clip-On Holder, Shade Label Sheet 2pk.

Item #20Z479

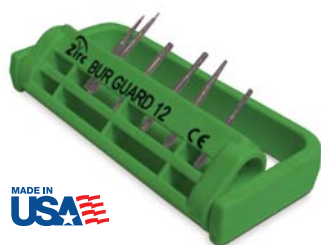

Syringe Clip-On Holder

Allows quick access to composite during procedure. Conveniently clips on any side of Tub, B-Lok Tray or Capsule Composite. Holds 15 syringe tubes and 3 applicator tips.

Dimensions: 8" x 2 7/16" x 3/4"

Item #20Z486

Zirc Bur Guards

This gadget has it all! Not only does it protect your burs during cleaning and sterilization, but it also can be positioned at three different angles to give you easy access at chairside. Fits FG, RA, and HP Burs. Adjustable height for multiple-length burs (Surgical Bur Guard not adjustable). Holds bur in position for maximum cleaning effectiveness. Drain holes help prevent rusting of burs.

12-Hole Bur Guard

Accommodates burs from 12mm-30mm.

Dimensions: 2 7/8" x 3/8" x 1 3/8"

Item #50Z406(+ colour letter)

22-Hole Bur Guard

Accommodates burs from 12mm-30mm.

Dimensions: 4 7/8" x 7/16" x 1 1/2"

Item #50Z410(+ colour letter)

12-Hole Tall Bur Guard

Accommodates burs from 30.9mm-37.1mm.

Dimensions: 2 7/8" x 3/8" x 1 5/8"

Item #50Z408I

Zirc Steri-Endo Guards

A delivery system to organize, store, and sterilize endodontic files and reamers. The Endo Guard swivels 360° with stops at every 45° for operator's choice. Large slotting provides complete visibility and draining during cleaning. Holds most lengths for staging, cleaning, and sterilizing files and reamers. Millimeter gauge measures and positions rubber stopper. Counter on locking bar tracks the number of sterilizations. Right or left-hand use; optional angling. Available in Hand or Engine styles. Single-use foam insert cleans/holds files.

Steri-Endo Guard Engine

Organizes up to 11 engine and 5 hand files/reamers.

Dimensions: 5 3/8" x 3/8" x 2 3/16"

Item #50Z452(+ colour letter)

Steri-Endo Guard Hand

Organizes up to 16 hand files/reamers.

Dimensions: 5 3/8" x 3/8" x 2 3/16"

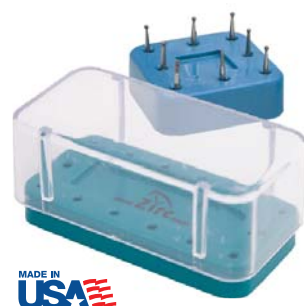

Item #50Z450(+ colour letter)

Foam Inserts

Single Use.

48 pk. #50Z451

144 pk. #50Z451V

Zirc Magnetic Bur Blocks

Fits FG, RA, and HP Burs. Magnetic base holds burs securely. Non-slip feet for stability. Drain holes help prevent rusting of burs. Covers available to maintain cleanliness of burs during storage. 1" covers for FG and RA burs; 2" cover (14-hole only) for lab and surgical burs. **Covers are not autoclavable.**

8-Hole Bur Block

Covers sold separately.

(375 tabs per box)

Flow™ Sticky Bites™

These disposable bite blocks are made from tasteless polyethylene foam and easily affix to film or PSP plate.

#15780 (500 per box)

Flow™ Perfect Fit™ Adjustable Camera Sleeve

Quickly and easily achieve a tight, custom-fit on virtually any size camera head!

#80125 (150 per box)

Flow™ All Bite™ Disposable Sensor Holder

Take either Horizontal or Vertical bite wing X-Rays on the fly, without changing position or parts.

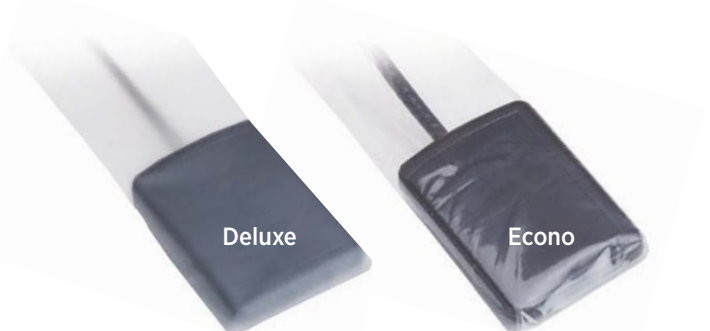

#409155 (30 per box)

Flow™ Bite Block Baggies™

These bags fit over the bite block and alignment arm to prevent cross contamination. Simply re-bag the block for the next patient. (3.15" x 4.74")

#70104 (500 per box)

Comfees™ Sensor Sleeves

Comfees™ are simply the best barrier sleeve you can buy, making sensor imaging easier and quicker for the technician, safer and more comfortable for the patient. They feature a super-soft vinyl material that makes loading the sensors effortless. The added strength of the material also protects against tears. Both the Deluxe and Econo versions feature rounded corners for better fit and added patient comfort. Both also feature our unique tear-away seams, so you can easily peel back the Comfee instead of tugging on the sensor wire.

Deluxe

Medium (1 1/4" x 7 1/2")#80200

Fits most size 0 and 1 sensors

Large (1 1/2" x 7 3/4")#80210

Fits most size 2 sensors

(500 per box)

Econo

Medium (1 1/4" x 7 1/2")#80201

Fits most size 0 and 1 sensors

Large (1 1/2" x 7 3/4")#80211

Fits most size 2 sensors

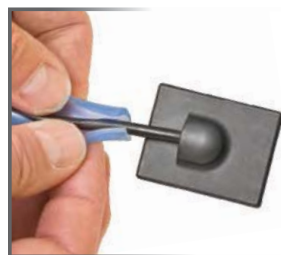

(500 per box)

Snuggies™ Custom-Fit Sleeves

Protect your equipment and your patients with a snug, custom-fit sensor sleeve – regardless of sensor size. Simply peel, stick, and go. (1 1/2" x 8")

#80222 (500 per box)

Cable Saver™

Protect your cables from being stepped on, rolled over, twisted, and tangled. Available in 8' lengths.

#80500 (8' Length)

X-Ray Sleeve

15" x 26"#53329

(250 sleeves per box, 6 boxes per case)

Digital X-Ray Sensor Sleeve

Medium (7 7/8" x 1 3/8")#53330

Fits most size 0 and 1 sensors

(500 sleeves per box)

SINGLE COLOUR

IMPRINTED

Promote your practice with a huge assortment of imprinted dental products from maxill. Imprinted dental items cost very little and keep on communicating your advertising message for months!

Contact your sales rep or call **1-800-268-8633** to find out more information about maxill's custom imprinting.

Imprinting: Plate setup fees may apply.

Logos, specialty fonts and custom graphics can sometimes be used and must be supplied by customers. Call one of our sales representatives at **1-800-268-8633** for file format requirements. Logo files and specialty graphics can then be sent to imprinting@maxill.com.

Please Note: Gold ink is not recommended for any light coloured items. There is only one ink colour allowed per minimum order.

Brushing Timers	300	Black	50 mm x 5 mm
Tooth Shaped Coin Bank	60	Black	64 mm x 40 mm

See page 66 for Imprinting area reference

HD imprinting, also known as high-definition imprinting, is a revolutionary printing technology first offered to dental professionals by maxill. This form of printing allows us to print full-colour, photo-realistic images onto imprintable products from our catalogue.

It all starts with a call to maxill Customer Service (**1-800-268-8633**) or your friendly maxill Customer Representative. They can help you with the products you want to imprint and assist you in getting your own unique artwork ready for your order.

Email is an invaluable tool to speed up the process of getting the look you want. Download the Imprinting Request Form from www.maxill.com/ca/imprinting, fill it out and email it to imprinting@maxill.com. Once your order has been received, a sales representative will follow up with you to confirm your order.

Product	Min. Order	Imprintable Area (width x height)
Deluxe Travel Case	100	75 mm x 12 mm

Nip the Ship

For maxill to maintain the lowest in everyday pricing, it is necessary to have a reasonable minimum shipping amount to cover rising transportation costs on orders under \$300. If your order is under \$300, you can select any one of the following six "nip the ship" packages for only \$25.00 and there will be no shipping charge applied to your order.

It's as simple as that. The products contained in the "nip the ship" package are commonly used products in every dental office. No item substitutions allowed on any of the "nip the ship" packages.

 Kit 1 ...#69001 Contains: 1 x 946 mL Zymax QG Enzymatic Cleaning Gel (#60026) 1 x 500 mL Formula 3 Plus Unscented Deluxe Antibacterial Hand Soap (#62300) 1 x 160 Wipes tb Minuteman NEX GEN Disinfectant Wipes (#61160)	 Kit 2 ...#69002 Contains: 1 x 1 L UCS33 Ultrasonic Cleaning Solution (#60037) 1 x 500 mL Formula 3 Plus Unscented Deluxe Antibacterial Hand Soap (#62300) 1 x 946 mL SCHIFF'S Chair Cleaner & Polish (#60020)	 Kit 3 ...#69003 Contains: 1 x 946 mL Zymax QG Enzymatic Cleaning Gel (#60026) 1 x 500 mL Formula 3 Plus Unscented Deluxe Antibacterial Hand Soap (#62300) 1 x 26 Tablets Evaculine Pro-Tabs (#60335)	 Kit 4 ...#69004 Contains: 1 x 10 Tablets maxill H2O DUWL Tabs (#60087) 1 x 500 mL Formula 3 Plus Unscented Deluxe Antibacterial Hand Soap (#62300) 1 x 2 L ipana Pre-Op Oral Rinse with 1.5% Hydrogen Peroxide (#40445)	 Kit 5 ...#69005 Contains: 1 x 946 mL Vinodex Surface Disinfectant (#60004) 1 x 500 mL Formula 3 Plus Unscented Deluxe Antibacterial Hand Soap (#62300) 1 x 1 L Evaculine 64 Evacuation System Cleaner (#60036)

Try Me Cheap

SAVE MONEY! TRY NEW PRODUCTS

With maxill's **Try Me Cheap** program, you'll get your first order of an eligible item at a **SHOCKINGLY** low price!

STEP 1: Choose Your Products

Select the Try Me Cheap products that you'd like to try from our collection of available products.

STEP 2: Call to Confirm Eligibility

Give us a call at 1-800-268-8633 to confirm your eligibility and place your order.

TERMS & CONDITIONS

*Try Me Cheap pricing is available only for select items that you have not purchased before. Try Me Cheap pricing is subject to change without notice. No returns on Try Me Cheap items. Cannot be combined with any other offer. New accounts must be prepaid. Orders over \$300 have shipping included. Shipping surcharges may apply for certain rural or remote areas. Orders under \$300 are subject to a \$23.00 shipping fee. Speak with a maxill Sales Representative for details.

Be a *Price Reporter* & *Save Even More!*

maxill believes that pricing transparency is paramount to an open, clear and honest relationship with you, our valued customer. Most, if not all of maxill's competitors make you "sign in" to shop or to get access to their pricing. Why is that? When you compare maxill's everyday low pricing to that of our competitors you will realize why they keep the pricing hidden. They would be embarrassed.

Someone quoting you hotter than maxill?

Trying to win you back after being too high priced all along?

Someone got something on promotion?

Contact your maxill sales rep or maxill Customer Service and
we will give you an extra 2% off for your effort!*

TERMS & CONDITIONS

* maxill will match and beat any comparable competitor product offering by 2%. Product sizing, quantity, weights and other factors are taken into consideration. We reserve the right to not match pricing on obvious blow outs or liquidation situations. On your order, only items that we have matched will get the additional 2%, not the entire order if the order consists of other non-matched products. The 2% discount will be for that order only. We reserve the right to limit quantities. Speak with a maxill sales rep or Customer Service Representative to learn how you can cement future savings via a maxQuote Account.

Terms of Sale

PRICES

- Suggested list prices are subject to change without notice.
- Taxes are extra.
- While great care is taken to ensure the accuracy of pricing in this catalogue, in the event a product is listed at an incorrect price due to an error, maxill reserves the right to refuse, or cancel any orders placed for product at the incorrect price

TERMS OF PAYMENT

- Net 30 days. Orders may be held for accounts in default of credit terms.
- A \$25.00 (per cheque) fee will be charged for N.S.F. cheques.

CREDIT APPROVAL

- Possession of a catalogue or price list does not constitute a commitment by maxill to establish an account or extend credit to any person or company.

FREIGHT

- Orders over \$300 have shipping included. Shipping surcharges may apply for certain rural or remote areas. Orders under \$400 are subject to a \$23.00 shipping & handling fee.

DANGEROUS GOODS

- A Dangerous Goods Surcharge may apply to certain chemicals (as noted by *DGS in catalogue). At time of printing, this DGS charge is \$20.00 (subject to change without notice)

RETURNED GOODS

- Goods may not be returned without prior authorization from maxill. All returns must be authorized by our customer service department who will also make appropriate arrangements for the pick-up of the product.
- Your invoice number is required for all returned product.
- A restocking charge and courier return fee may apply.
- Special orders and open product are not returnable. Products that are not properly packaged for return shipping are subject to inspection before determining if credit will be issued.
- maxill reserves the right to refuse returns for product that has been in your possession for more than 30 days.

SHORTAGES

- In order for maxill to take action on items that may have been shorted on your order, we must be notified within five days of receiving the order. maxill will not be responsible for shortages after this period.

DAMAGE CLAIMS

- It is the responsibility of the carrier to deliver the merchandise in good condition. Please inspect all deliveries in the presence of the carrier. Should you receive any damaged merchandise, contact maxill immediately. Leave the goods in the box you received them, along with all packing materials. It is possible that a representative of the carrier will visit you to inspect the damaged items.
- Due to strict rules pertaining to damages by the carrier, maxill inc. cannot be responsible for damaged items if these instructions are not followed.

BACK ORDERS

- Please refer to the B/O (Back order) column on your invoice for items that were not available at the time your order was shipped. We will notify you via telephone when the product becomes available.

ORDER ADD ONS

- We pride ourselves on fast, efficient and quality service. To ensure that you receive your product as quick as possible, orders are processed for delivery as they are submitted. We are only able to add items to an existing order within 60 minutes from the time the original order was placed, otherwise, the orders will be processed separately and additional shipping fees may apply.

PAYMENT & SERVICE

5 Convenient Ways to Pay:

1. Cash at our office in St. Thomas
2. Cheque or Money Order made payable to "maxill inc". Please include your customer number on your cheques.
3. VISA or MasterCard by calling us at 1-800-268-8633 or by logging into our website at www.maxill.com
4. EFT/Direct Deposit
5. On-line banking, phone banking or by teller banking, by setting us up as a payee. Look for 'maxill' or 'maxill inc' as the payee name.

maxill always makes it right. Not only do we do our best to make quality products but we try to make all customer service issues right as well. If there is ever a problem, we will fix it.
