

SPRING INTO ORGANIZATION!

Looking to get organized this Spring? Zirc's innovative, colorful products are a great place to start! We are a company dedicated to making dental teams *safer, happier, and more efficient*. Let our products provide peace of mind and make your day a little less stressful!

B-Lok Trays & Covers

The B-Lok Tray and locking cover work together to give the user the most efficient method of infection control. Zirc's Safe-Lok® Tray Covers securely lock to the tray so a practice can set up procedures in advance and have safe transportation by preventing cross-contamination. Trays are autoclavable and available in all colors. Self-lubricating, high gloss surface prevents staining. Non-slip feet for stability.

DO NOT heat sterilize covers, surface and washer disinfect only.

What is Color Method?

Color Method is the process of managing dental instruments and materials by assigning each procedure a different color. Zirc's Color Method creates a streamlined, stress-free day-to-day routine from setup to sterilization. Implementing this simple system adds a visual element to both instrument and material management yielding a workflow properly optimized for efficiency, leaving your team more confident and less stressed.

efficiency

Zirc's color-code products are designed for the highest level of organization and efficiency for the dental practitioner.

productivity

Spend less time searching for instruments and materials, and more time focused on patients and procedures.

value

Zirc's color-code system utilizes high-quality, durable resin products such as cassettes, trays and tubs at an affordable price.

Is your practice as efficient as it could be?
