maxill • Imprinting

HD imprinting, also known as high-definition imprinting, is a revolutionary printing technology first offered to dental professionals by maxill. This form of printing allows us to print full-color, photo-realistic images onto imprintable products from our catalog. Unlike pad imprinting, which is limited to basic artwork and one ink color, HD imprinting allows much more freedom! Specialized inks, pre-treating processes and flatbed printers allow us to efficiently produce high-quality custom graphics for our customers. Get started today!

There is a \$28.00 artwork fee for HD Imprinting.

Imprinting: Artwork fee will be waived on additional products if same art is used. Logos, specialty fonts and custom graphics can sometimes be used and must be supplied by customers. Call one of our sales representatives at **1-855-462-9455** for file format requirements. Logo files and specialty graphics can then be sent to **imprinting_us@maxill.com**.
