maxi-bibs™ Plus
Disposable Patient Bibs

maxi-bibs Plus Disposable Patient Bibs are designed to maximize both strength and absorbency. The heavy weight, facial quality tissue features a horizontal pattern that directs moisture away from the edges, protecting patient clothing. Enhanced edge embossing helps provide extra strength to prevent tearing where bib clips are attached. The superior bonding of the 3 plies of paper and 1 ply of polyethylene holds the layers together eliminating separation.
