Zymax™ QS

Quick Shot Enzymatic Cleaning Foam

Zymax QS Enzymatic Cleaning Foam is a multi-enzyme RTU detergent. The proprietary blend of enzymes is formulated to be especially effective in the removal of organic material found on instruments.

Zymax QS is ideal for saturating instruments when soaking is not an immediate option. The spray foam coats the instrument and reaches hard-to-reach places to help ensure organic matter does not harden and complicate the cleaning/reprocessing process. Zymax QS Enzymatic Cleaning Foam is a complementary addition to instrument re-processing as a pre-cleaning step.

Use Zymax QS to safely clean:

- ***Plastics***
- ***Rubber***
- ***Stainless steel***
- ***Fabrics soiled with organic debris***

- ***Non Corrosive***
- ***No Phosphates***
- ***Non Caustic***
- ***Foaming***
